Holloway's Pills and Holloway's Uintment. Disorders of the Stomach, Lives and Rowels—The Stomach is the great center which influences the health or disease of the system—abused or debilitated by excess—indigestion, offensive breath and plysical prostration are the natural consequences. Alies to the brain, it is the source of beataches, mental depression, nervous complesints and unrereshint sleep. The Liver becomes affected and generates bilious disorders, pains in the fide, &c. T. e Rowels sympathise by Costiveness, Diarrhea and Dysentery. The principal action of these Pills is on the stomach, and the liver, lungs, bowels and kidne-s participate in their recuperative and regenerative operation. Erysinelas and Salt Rheum are two of the most common and virulent disorders prevalent on this continent. To these the Ointment is especially antazenistic. Its "modus operandi" is first to eradicate the venom and then complete the cure. Bad Legs, Uld Sores and Ulcers, cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment have invariably succumbed to a few applications of this powerful unruent. Eruptions on the Skin, arising from a bad state of the blood or chronic diseases, are eradicated, and a fear and transparent surface regained by the restortive action of this Ointment. It surpasses many of the cosmeties and other toilet aprliances in power to dispel rashes and state of states in power to dispel rashes smallenged that dispels and desired that an arked improvements soon perceptible in the health of the patient.
